

altair™ LOUVRES

by Breezway

New to Hawaii
Altair Louvre windows

Now available within a locally
manufactured PVC frame
featuring nail-on fins

Features & Benefits:

- RMA now supplies Altair hardware within a PVC frame which has nail-on fins
- Extremely low air leakage allows air conditioners to run efficiently
- No points of potential corrosion due to exclusive use of non corrosive parts
- Increases natural ventilation & air quality
- Available in white and beige colors to match the PVC frames and bronze anodized for re-fits
- Non standard heights are available to match your existing window opening
- Glass blades available in Clear, Gray, Bronze or Obscure
- Manufactured in Hawaii with 7 year warranty
- Suitable for outside screens only

PVC Window System Technical Data

Glass, Aluminium and Timber Technical Data 102mm (4") and 152mm (6")

- Blade widths are 102mm (4") and 152mm (6").
- Only 6mm – 6.38mm blade thicknesses to be used.
- Glass length should be as per the relevant glass and wind loading standard. Guidelines are available from your local distributor.
- Toughened glass may be required in high wind areas or areas with high risk of human impact.
- Blade length = Frame width - 117mm (4 5/8") for single Bay (Please refer to your local distributor for calculating multiple bay blade lengths).

Architectural Feel – The 6-Inch
